

THE 2007 DONZI 38 ZX

The Donzi 38 ZX was designed with a “no-compromises” mindset: Why settle for a cramped, stripped-down performance boat, sacrificing comfort for speed, when you can have it all? Thanks to the unsurpassed hydrodynamic efficiency provided by Donzi’s Z-Tech ventilated hulls, the 38 ZX is deeper, wider, and far more luxurious than competitive offerings while at the same time offering speed and handling you’d expect from a boat wearing the Donzi name.

The 38 ZX features a roomy, stand-up cockpit that offers great comfort and security, even while at speed. Overnights will appreciate the 38 ZX’s roomy cabin, which offers a convenient galley as well as an enclosed head compartment. From its comfortable wraparound cabin seating to its roomy v-berth, the 38 ZX goes above and beyond in its quest to artfully combine two sometimes dissimilar elements: comfort, and performance.
